

REMARKS

In response to the Restriction Requirement, Applicants elect to prosecute on the merits the subject matter of Group IV, claims 161 to 167, drawn to a method of forming enantiomerically-enriched tetrahydrobiopterin (BH4) or a salt thereof from neopterin, classified in class 544, subclass 251. Applicants respectfully request that the claims of Group IV be examined. Applicants reserve the right to pursue non-elected subject matter in one or more divisional, continuation, and/or continuation in part applications.
